COMPANY OVERVIEW

Information Design Consultants Inc. (IDCI) provides strategic project management and information systems services characterized by exceptional competence, integrity, and subject matter expertise. We transform projects through insight-driven approaches that reveal hidden opportunities and solve complex challenges. Founded in 2002, we specialize in supporting government agencies, transit authorities, and corporate entities with effective project management solutions that increase revenues, reduce costs, and improve customer and employee satisfaction.

CORE COMPETENCIES

VIRTUAL PMO SERVICES

On-demand project controls (schedule, risk, change management, cost control), portfolio strategy, and PMO setup & governance.

PROJECT MANAGEMENT TRAINING & COACHING

Customized training and one-on-one coaching in project charters, WBS development, and schedule creation, from fundamentals to advanced practice.

SYSTEMS SUPPORT & TECHNICAL WRITING

PMIS and document control systems, data management/analysis, and production of technical documents, procedures, and reports.

PROJECT DELIVERY ACCELERATION

Bottleneck identification, workflow optimization, and agile methods that shorten time-to-market without sacrificing scope or quality.

PROJECT TURNAROUND & IV&V

Diagnosis, recovery planning, and corrective action for struggling initiatives; independent verification and validation as primary liaison to protect client interests.
