

CAPABILITIES STATEMENT

Transportation Program & Project Delivery Support for Caltrans

CALTRANS DBE CERT.

NO. 32447

CALTRANS STANDING

IDCI is a Caltrans-certified Disadvantaged Business Enterprise (DBE), Certification No. 32447, and a graduate of the Caltrans Business Development Program. IDCI has not yet performed on a direct Caltrans contract; our program graduation reflects Caltrans' own assessment of our readiness to compete for and deliver its work, and we are actively seeking our first engagement with the Department.

COMPANY OVERVIEW

Information Design Consultants Inc. (IDCI) provides strategic project management and information systems services characterized by exceptional competence, integrity, and subject matter expertise. We transform projects through insight-driven approaches that reveal hidden opportunities and solve complex challenges. Founded in 2002, we specialize in supporting government agencies, transit authorities, and corporate entities with effective project management solutions that increase revenues, reduce costs, and improve customer and employee satisfaction.

CORE COMPETENCIES

VIRTUAL PMO SERVICES

On-demand project controls (schedule, risk, change management, cost control), portfolio strategy, and PMO setup & governance.

PROJECT MANAGEMENT TRAINING & COACHING

Customized training and one-on-one coaching in project charters, WBS development, and schedule creation, from fundamentals to advanced practice.

SYSTEMS SUPPORT & TECHNICAL WRITING

PMIS and document control systems, data management/analysis, and production of technical documents, procedures, and reports.

PROJECT DELIVERY ACCELERATION

Bottleneck identification, workflow optimization, and agile methods that shorten time-to-market without sacrificing scope or quality.

PROJECT TURNAROUND & IV&V

Diagnosis, recovery planning, and corrective action for struggling initiatives; independent verification and validation as primary liaison to protect client interests.

DIFFERENTIATORS

1 TECHNICAL EXPERTISE + PRACTICAL SOLUTIONS

— Deep technical knowledge paired with business acumen and leadership, solving problems before they affect objectives, timeline, or budget.

2 PROVEN METHODOLOGY & INDUSTRY EXPERIENCE

— Refined best practices and twenty-plus years of experience delivering for transit authorities and California public agencies.

3 CERTIFIED DBE & BUSINESS DEVELOPMENT PROGRAM GRADUATE

— Caltrans-certified Disadvantaged Business Enterprise (DBE No. 32447) and a graduate of the Caltrans Business Development Program, with additional availability through California Multiple Award Schedules (CMAS).
